

# Weather station uses IP55 outdoor automatic trading cabinet

## Overview

---

It meets IP55 and GB4208-93 standards for protection against water and dust, while still allowing for ventilation. Inside, the rack is compatible with EIA-standard 19-inch components using cage nut fasteners and comes with two shelves for additional storage.

It meets IP55 and GB4208-93 standards for protection against water and dust, while still allowing for ventilation. Inside, the rack is compatible with EIA-standard 19-inch components using cage nut fasteners and comes with two shelves for additional storage.

Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Support custom-made. Includes: locking door with air.

For outdoor server and network applications, the weatherproof rack cabinet is designed to protect equipment from water, environmental elements, and debris. With front and rear doors, allows easy access for installation and maintenance while the o-ring around each door creates a water resistant seal.

-Yes, AZE specializes in NEMA 3R, 4, 4X, IP55, and IP65 rated outdoor enclosures designed to protect your equipment in harsh environments. Our enclosures are built to withstand rain, dust, corrosion, and extreme temperatures, making them ideal for telecommunications, utilities, oil & gas, and.

Designed specifically for outdoor server and networking use, this weather-resistant rack cabinet shields your equipment from moisture, dust, and debris. What's Included! Fully enclosed Rack with cooling vents, 2 fans, easy wiring & sealed door  
Why Choose It?

It features front and rear doors for.
