

# Weather station uses IP55 outdoor cabinet 120kW

## Overview

---

What is an IP55 enclosure?

IP55 enclosures offer a balanced level of protection for outdoor telecom, electrical, and industrial equipment, providing reliable performance across most climate zones. When properly selected and equipped, they ensure long-term operational stability even in demanding conditions.

What is an IP55 rating in outdoor cabinets?

The IP rating on enclosures is an international protection standard that indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles, and the ingress of water.

Are IP55 enclosures suitable for street use?

Yes, IP55 enclosures are appropriate for street use. They are designed to handle rain, splashes, wind-driven moisture, and general outdoor exposure within their declared operating limits.

Are IP55 enclosures safe?

Additionally, IP55 enclosures provide safety by preventing contact with the equipment inside. This protects both the equipment and anyone interacting with the enclosure from potential harm. IP55 enclosures come in a variety of durable materials, including aluminum, carbon steel, and stainless steel. Each material has its own benefits:
